

# ENABLING REMOTE MONITORING

*Empowering companies to monitor assets,  
no matter where they are located*

## A NEW PARADIGM IN IIOT

50%

Predictive maintenance  
using IoT significantly  
reduces equipment  
downtime

\$630B

Less downtime could  
lead to significant  
annual savings for  
manufacturers

-McKinsey & Company - 2015

## ASSET MONITORING MADE SIMPLE

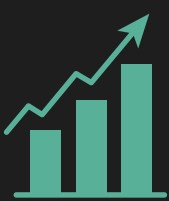

### Remote Monitoring

provides visibility into the  
performance of remote assets

### Predictive Maintenance

minimizes downtime through  
automated alerts and insights

### Operational Efficiency

gains can be realized by deploying  
resources only when required

75%

Did you know?

75% of industrial customers  
believe remote monitoring will  
improve business outcomes.

-The MPI Group - 2016
